

Data Analyst (18009)

Job Description:

Our client is looking for someone who can execute project work and has basic experience. Responsible for data de-duplication (matching and merging data), data cleansing (matching, linking, updating records, such as organization records, in batch and real time), hierarchy management (identifying, creating, correcting, update, and maintaining complex relationships among parent and child records), and data conversion (changing / transforming the data based on business rules, usually done before the data is integrated into a new system). Also raises escalations and communicates issues to DOC Project Lead.

Responsibilities:

- Working closely with the team to create new reports in SQL and PowerBI.
- You will triage bugs and existing reporting logic in reports and SQL.
- Optimize the SQL server and creating performance reports

Qualifications:

- 5 years' experience in Database Design, Development and business intelligence of Microsoft SQL Server 2014/2012/2008.
- 1-2 years of experience in reporting.
- Expert / daily working experience with Excel, SQL Server Reporting Services & Power BI.
- Expert / daily working experience on retrieving, manipulating and formatting data from SQL server (both new and existing data sources). Can write functional and optimized queries independently or with the least amount of assistance from peers. Function end to end – from fetching the data, to providing insights via data analysis, and finally sharing the data via PowerBI or SSRS Dashboard.

Please note: we are unable to consider third party candidates for this position.

Axelerate offers Equal Employment Opportunity to all applicants regardless of race, religion, color, sex (including pregnancy, gender identity, and sexual orientation), parental status, national origin, age, disability, family medical history or genetic information, political affiliation, military service, or other non-merit based factors. These protections extend to all management practices and decisions, including recruitment and hiring practices, appraisal systems, promotions, and training and career development programs.
